2545 RUDY: As we enter 2021, it's a new day. We have the proof. We've presented it. They are the liars and cheats including some Republicans. Time to expose them including our so-called own. (twitter.com)

40 ▼ Jan.6th needs to come sooner! It's all I can think about right now, I'm losing sleep over it. Our government is currently playing a game on who can fuck over the American people the most and I'm sick of it!

22 ▼ The chances of anything changing through Congress are long...whether Pence has the authority to do anything is up in the air, and there's no chance you'll get a majority of the House and Senate voting to toss out ballots from contested states.

One thing I do know for certain is that, should 5 million or more patriots show up in DC, President Trump won't be going anywhere.

8 ▼ Ot was never going to get solved this way. It's no good. Both sides will claim some bullshit and not accept it. Something g much more convincing must happen. I think Biden is going to concede mYbe get arrested or te states will flip for trump. Georgia just had a unanimous vote for the audit.

1 ▼ I think it will take months more to come to a reasonable conclusion - more and more evidence will come to light - surely there are witnesses to the foreign interference. And in the meantime, Trump with our help should "Occupy the Whitehouse." Nothing policy-wise will really get done perhaps, but neither will Biden/Harris be able to pass horrible legislation that fucks us.

19 I am praying to God for a miracle and a Trump win, but the Dem commies are running out the clock. The only hope I see is one of the cheated states has to decertify the fraudulent Biden electoral votes (maybe the QR scanner guy can quickly show that a large % of GA absentee ballots are fraudulent) or Trump needs to drop some undisputable evidence supplied by the DNI and call in Marital Law and set off a constitutional crisis BEFORE Jan 6. I love Rudy, Powell, Lin Wood, the QR scanner inventor guy and all of the amazing witnesses, but If we get to Jan 6 with what we have now, I just don't see how this suddenly gets flipped to Trump. Maybe Pence can choose the GOP electoral votes from WI, PA, GA, AZ, MI and NV, instead of the Biden cheated ones, but what if he doesn't? Even with protests in the house and senate, I can't see how this gets kicked to the congressional delegations where the GOP has the majority. God is in control, but this is looking grim. Jan 6 could be Lexington and concord 2.0

10 You are correct imo. We don't have the ballots, they do. Which means we don't have any evidence. They're shredding and destroying them in spite of court orders.

They will never give us our country back because it's not ours. We have owners and they sold it out from under us.

We will have to take it.

We will have to dispose of the media, Congress, the courts and the majority of the executive branch of we want it back. We will have to destroy contract law since it is used to strip is of our constitutional rights.

Every agreement you SUBMIT to, replaces your constitutional rights.

We will have to strip the majority of federal and state laws that violate the constitution. All gun laws. Patriot Act, Military Commissions Act etc. Federal Reserve must be destroyed. Pull out of UN and all global organizations. WHO, WTO, World Bank etc.

Communist Global companies will have to be destroyed or taken over. They are the source of cultural decay. Everywhere they go, they promote marxism. Corporate ideology is communist and they've been pushing this shit little by little culturally since the 80s. Moving the overton window slowly.

Schools and teachers will have to be reprogrammed and observed constantly by the public for anti american and Marxist behaviors.

Last, there are tens of millions of brainwashed communists in this country that will have to be dealt with harshly.

Hoping that this is going to be fixed by a process run by the very people that sold you to the communists is fucking mental.

We will have to become fascist to defeat the communists. That's why they've been calling us fascists. Because we will be. Because to survive, we must be.

Welcome to Weimar Germany. It breaks my heart to write this, but it's time to get to work.

11 Wait...he's already presented all the proof he has? I was under the impression there was going to be a bunch of new findings that were going to shock all the normies! I've watched every hearing and followed this to know there is MASSIVE evidence of fraud but HE has been telling us that there are going to be revelations that are going to shock the nation.

3 Yea, where is all that mind-blowing, earth-shattering shit that Lin, Sydney, and Rudy have been promising?

I guess that server raid in Germany is bullshit then?

Lin's claims against Justice Roberts don't mean shit if he doesn't show some proof.

Hunter giving money to the "big guy" and being investigated doesn't mean shit if nobody is arrested.

The 6th isn't a rally. It's not even a protest. It's beyond that. It's a revolt!

I think this is the biggest difference between Conservatives and Liberals. If you're a traitor, liar, cheat... conservatives want NOTHING to do with you.

But if you're a traitor, liar, cheat... It's like Liberals only know how to double down and defend these people.

I would gladly work with an honest, fair and constitutionally abiding Democrat over any Rhino! Party lines don't matter at this point, it's all about integrity and the upholding the constitution to provide freedom and opportunity for ALL Americans

Labels mean nothing actions everything. Just point out the evil doers to the citizens. We need some satisfaction for 100 years of treason and treachery.

In case you haven't noticed, the MSM and legal system doesn't give a shit. Really starting to feel like the 6th is no longer a protest, but a revolt.

1 They've had the proof since Nov. Proof hasn't gotten them anywhere when the courts, media, scotus, all ignore it. Proof isn't going to be enough.
